FY 1999 AMENDED BUDGET ESTIMATES
OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

INTRODUCTORY STATEMENT

The Operation and Maintenance, Army National Guard (O&M, ARNG) Appropriation funds operational, logistical, and administrative support for the Army National Guard forces. Obligations incurred in BA-1 restructure provides the support for civilian technician pay, supplies, fuel, equipment, and base operations. Funding is provided in two Budget Activities: Budget Activity One -- Operating Forces, consists of the following sub-activities: Land Forces, Land Forces Readiness, Land Forces Readiness Support, and Recruiting and Retention. Budget Activity Four -- Administrative & Servicewide Activities, consists of the following sub-activities: Personnel Administration, Staff Management, Information Management, Public Affairs, and Recruiting and Advertising.

The FY 1999 budget request of \$2,436.8 million provides training and operations support to an authorized force of 357,000 end strength for FY 1999. Civilian end strength is projected to be 24,312 in FY 1999. Civilian end strength includes 23,815 military technicians and 497 Department of the Army civilians for FY 1999 respectively.

Ground OPTEMPO is funded at 288 miles for FSP 1 & 2 units. Other units are funded based upon tiered readiness levels. The Flying Hour Program is funded at 6.9 hours per crew, per month, for FY 1999.

The Army National Guard continues to resource readiness levels with the higher priority units receiving priority funding and later deploying units receiving reduced levels of resources.

DEPARTMENT OF THE ARMY
FY 1999 AMENDED BUDGET ESTIMATES
OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Program Budget Decision Unit: Operation and Maintenance, Army National Guard - 065

Appropriation Summary

I. Description of Operations Financed:

Operation and Maintenance, Army National Guard finances all cost of operating and maintaining the Army National Guard (ARNG), except military pay. The FY 1999 budget request supports an end strength of 24,312 for FY 1999. In addition to direct support of the ARNG forces, this appropriation provides for ARNG administration, communication, supply activity, transportation and depot maintenance. Resources of \$1,074.2 million in FY 1999 are to support pay and benefits of 24,312 civilian end strengths. The balance of \$1,362.6 million in FY 1999 is for the operation/maintenance/repair of equipment and facilities.

Operation and Maintenance, Army National Guard

II. Force Structure Summary:

FY 1999 authorized endstrength level is 357,000.

DEPARTMENT OF THE ARMY
FY 1999 AMENDED BUDGET ESTIMATES
OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Budget Activity Group 1: Operating Forces
O-1 Line: Mission Operations

I. Description of Operations Financed:

Budget Activity 1 Operating Forces provides funding for the O-1 Line Mission Operations which include the following subactivities: Training Operations, Base Support, Recruiting and Retention, Medical Support, Depot Maintenance, and Real Property Maintenance.

Training Operations provides funding for training support of units in accordance with readiness objectives and logistical support to furnish and maintain combat ready ARNG forces.

Base Support provides funds for multiple activities that support the infrastructure of the Army National Guard. These subactivities include Base Operations Support, Storefront Recruiting, Family Programs, Administrative Services, Safety and Occupational Health, Communication Services, Army Community of Excellence, and Environmental Compliance.

Recruiting and Retention finances the costs of recruiting soldiers for Army National Guard units and the retention of quality individuals currently in the force.

Medical Support provides funding for medical supplies and medical care in non-federal facilities.

The Depot Maintenance program provides for the procurement of repair parts, depot level repairables, and materials required for the maintenance and repair of ARNG equipment including aircraft; procurement of contractual maintenance; and the cost of depot level maintenance performed in the Army depots on a repair and return to user basis.

Real Property Maintenance provides funds for repair of real property and real property facilities authorized support by the Federal Inventory and Stationing Plan. The Minor Construction program funds projects or new construction portions of real property projects for supported facilities where the total new construction costs or portion of the total project cost is less than \$300,000.

DEPARTMENT OF THE ARMY
FY 1999 AMENDED BUDGET ESTIMATES
OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Budget Activity Group 1: Operating Forces
O-1 Line: Mission Operations
Subactivity Group: Land Forces

I. Description of Operations Financed (LAND FORCES):

Land Forces are the heart of the Army National Guard. They constitute the fighting power available to the combatant Commander in Chiefs (CINCs) to fulfill the Army's mission in implementing the National Military Strategy. This activity group (AG) funds Operating Tempo (OPTEMPO) -- the cost for consumables, reparables, fuel, and other recurring operating costs required to maintain a trained and ready force. Land Forces AG consists of the sub-activities listed below.

DIVISIONS - Funds operations of all divisions and their associated organic forces. Each division is numbered and assigned missions based on its structure. It may be Infantry, Airborne, Air Assault, Light or Mechanized Infantry, or Armored. The typical division base includes: division headquarters, subordinate combat maneuver brigade headquarters, infantry and armor battalions, field artillery, engineers, air defense artillery, aviation, military police, signal, military intelligence, and division support command (supplies logistic services). Two or more divisions constitute a Corps. Over 60% of the Army National Guard force is located in the divisions.

CORPS COMBAT FORCES - Funds operation of corps level combat units (not organic to a division). Includes aviation, cavalry, field artillery, and air defense brigades/regiments/groups that may be employed on independent or semi-independent operations.

CORPS SUPPORT FORCES - Funds operation of corps headquarters and corps level combat support units that provide critical support functions for divisions and corps combat forces. Includes medical, signal, military police (MP), military intelligence (MI), finance, personnel, maintenance, transportation, and corps support command units.

Echelon Above Corps (EAC) FORCES - Funds operation of EAC units, separate from divisional and corps units that directly support operations within a specific theater. A theater Army is normally the Army service component in a unified command. The Eighth U.S. Army, Korea, is an example of a current theater Army. Includes theater Army headquarters and theater level aviation, engineer, medical, signal, finance, personnel, MP, MI, and logistics units.

LAND FORCES OPERATIONS SUPPORT - Supports force related training at the three Combat Training Centers (CTCs) and the Battle Command Training Program (BCTP). The CTCs provide the premium field training experience available to maneuver brigades and battalions; the BCTP train corps and division commanders and their staffs in a virtual simulation environment. Also funds centralized contract logistics support for training devices and simulators, and Direct Support/General Support (DS/GS) maintenance for all Land Forces tactical equipment maintenance not executed at unit level, to include the tactical equipment at the CTCs.

Subactivity Group: Land Forces

II. Force Structure Summary:

FY 1999 authorized endstrength level is 357,000.

DEPARTMENT OF THE ARMY
FY 1999 AMENDED BUDGET ESTIMATES
OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Budget Activity Group 1: Operating Forces
O-1 Line: Mission Operations
Subactivity Group: Land Forces Readiness

I. Description of Operations Financed:

The Land Forces Readiness activity group provides funding to support near term readiness requirements throughout the Army National Guard. These near term readiness requirements, when combined with the OPTEMPO requirements in Land Forces, constitute the majority of Operational Readiness (OPRED) requirements. OPRED requirements capture the costs of achieving desired readiness levels and ensuring our units are prepared for war. It includes funding for readiness requirements such as: Operation of training ranges and facilities, incremental expenses for Joint Chiefs of Staff (JCS) exercises, active component to reserve component support, combat development and testing (the process of determining new doctrine, equipment and organizations), and depot maintenance.

FORCE READINESS OPERATIONS SUPPORT - Funds support of key activities essential to the readiness of the Land Forces. Includes operation of training ranges and associated facilities, incremental expenses of participating in JCS exercises, active component support to the reserve components including Title XI, centralized procurement and issue of OMNG funded clothing and equipment, operation of key communication and TIARA intelligence systems. Also includes other support equipment, facilities, and the associated costs specifically identified and measurable to these units.

LAND FORCES SYSTEMS READINESS - Funds organizational, direct support/general support (DS/GS) for centrally managed maintenance and support of the fixed wing aircraft fleet, as well as Test, Management, and Diagnostic Equipment (TMDE) support. Also funds combat development tests and experimentation necessary to validate new doctrine, material, and organizations. Supports the Army Global Command and Control System (AGCCS).

LAND FORCES DEPOT MAINTENANCE - Depot Maintenance supports the recovery, repair, and return to combat forces of major equipment components and end items (e.g. trucks, tanks, etc.). A fully equipped operating force requires high quality technologically superior and well-maintained weapons systems to support readiness requirements and mission goals.

Subactivity Group: Land Forces Readiness

II. Force Structure Summary:

FY 1999 authorized endstrength level is 357,000.

III. Financial Summary (O&M: \$ in Thousands):

A. <u>Subactivity Breakout</u>	FY 1997 Actuals	Budget Request	FY 1998 Appropriation	Current Estimate	FY 1999 Estimate

Budget Activity Group 1: Operating Forces

O-1 Line: Mission Operations

Subactivity Group: Land Forces Readiness Support

I. Description of Operations Financed:

The funding in Land Forces Readiness Support activity group supports the post, camp, and station power projection infrastructure required to train, maintain, deploy, recover, and reconstitute Army National Guard mobilization forces. This activity group funds Base Operation costs including Environmental Conservation, Pollution Prevention, Environmental Compliance, Real Property Maintenance, Base Communication, and other activities vital to maintaining an adequate quality-of-life for our soldiers and their families. Base Operations Support and Real Property Maintenance are the primary components of the power projection infrastructure. Land Forces Readiness Support activity group consists of the sub-activities listed below.

BASE OPERATIONS SUPPORT - Provides an installation infrastructure to support Army National Guard operations and maintain a quality-of-life for our soldiers and their families. Base Operations Support includes maintaining power projection platforms (installations and other facilities) whereas the Mobilization Budget Activity supports the enhancements to deployment infrastructure which enable Army National Guard Forces to mobilize, deploy, recover, and reconstitute Active Component, and mobilization forces.

Base Operations Support funds multiple programs, to include Base Operations Support, Communications, and Environmental Compliance. Base Operations Support includes real property operations and physical security automation, full-time dining facilities, storefront recruiting, the family program, administrative services, the OSHA/safety program, and Army Communities of Excellence. As a result of mission transfers directed by the BRAC 95 legislation, Base Support will assume costs for an additional large training site (Ft. McClellan) in 1999.

Real property operations and physical security automation funds activities at training sites; unit training equipment sites; and mobilization, training mobilization, and training equipment sites. Additional activities funded include: combined support maintenance shops; organizational maintenance shops; aviation support facilities; aviation flight activities; aviation operating facilities; United States Property and Fiscal Officer facilities; aviation classification repair activity depots; armories and the Los Alamitos Armed Forces Reserve Center. These costs include utilities, materials and supplies, rental and service agreements, master planning and similar studies, and lease costs. The programs funds NGB authorized federal reimbursed state employees, to include base pay and contributions to FICA and Medicare, insurance programs, state retirement, training, and travel expenses (for personnel supporting activities on facilities away from home station), and support for the Army National Guard Readiness Center located at Arlington, VA.

Subactivity Group: Land Forces Readiness

Automation support provides funding for the operation of the Army Information Systems (AIS) Division, Army National Guard; sustainment of Standard Army Management Information Systems (STAMIS) and Army National Guard systems and programs. Also included are: automated data processing supplies, services, equipment, and training in the 50 States, Puerto Rico, Virgin Islands, the District of Columbia, and Guam. This program funds certain tasks associated with the integration of current automation systems architecture with the Reserve Component Automation System (RCAS) and the distance learning networks.

The full-time dining facilities program pays for the contracts required to open and operate dining facilities at Army National Guard regional and national schools in support of the Total Army School System. Storefront Recruiting is the contracting of commercial office space including maintenance and utilities (minus communications) costs in support of Full Time Recruiting Force (FTRE) production recruiters on a full-time basis. Storefronts are selected based on the following criteria: (1) Support a Force Support Package (FSP) unit, and (2) produce at or above state or national average. The National Guard Family Program pays for State Family Program Coordinator TDY costs, invitational travel of selected ARNG family members to attend command approved family supported seminars, workshops, and meetings. The Administrative Services and Publications programs support family purchases of audio-visual supplies, equipment, printing, publications, pamphlets, books, and resource libraries. The programs also support the mail mission, printers and duplication, copier expenses, and records management. The OSHA/Safety program pays for safety programs, training, equipment, and services. This program funds occupational health services, equipment, training, and regional industrial hygiene. The Productivity Improvement Program pays for awards presented to individual States for excellence in facilities and services.

The Base Support subactivity pays for Communications, which includes commercial communications used during annual training, inactive duty training, day-to-day administration and business of ARNG units, and field support activities. This subactivity includes the operations and maintenance of hardware, software, and visual information systems.

The Base Support subactivity provides resources for the Army Environmental Compliance, Conservation, and Pollution Prevention Programs in the Army National Guard. These programs are designed to enhance environmental quality, provide for pollution control and abatement, and ensure operations at Army National Guard installations are conducted in an environmentally sustainable manner, complying with standards set by law and regulation.

Real Property Maintenance (RPM) program provides funds for repair of real property and real property facilities authorized support by the Federal Inventory and Stationing Plan, including the procurement of materials and supplies required to maintain and repair authorized structures and allied support facilities (including utility lines). This subactivity pays for major facilities' repair projects such as roof replacement, repavement of runways, repair or replacement of major facility operating systems such as electrical, heating or air conditioning units, energy conservation and other projects necessary to restore the rapidly aging ARNG infrastructure. RPM funds projects designed

Subactivity Group: Land Forces Readiness

to extend the useful life of real property facilities, as well as major restorations or replacement projects for damaged, deteriorated, or aged real property in order to return the property to a usable condition. Funding is provided for needed modifications to existing facilities to accommodate the modernized equipment and increased training and readiness missions the ARNG will continue to receive. This subactivity group supports planning and design costs associated with repair projects, and costs of NGB authorized state employees, to include base pay and contributions to FICA and Medicare, state retirement, training, and travel expenses (for personnel working on authorized facilities away from their home stations).

Minor Construction Program funds projects or new construction portions of real property projects for supported facilities where the total new construction costs or portion of the total project cost is less than \$500,000. These projects may include installation or assembly of a new real property facility, additions, extensions, expansions, alterations, conversions, or replacement of an existing real property facility. This program supports the needed changes to maintenance facilities, training sites, armories, storage and other real property facilities of the enhanced ARNG training, schoolhouse, and readiness missions in support of the National Defense. As a result of mission transfers directed by the BRAC 95 legislation, the RPM subactivity will assume costs for Ft. McClellan in 1999.

Subactivity Group: Land Forces Readiness Support

II. Force Structure Summary:

FY 1999 authorized endstrength level is 357,000.

III. Financial Summary (O&M: \$ in Thousands):

Inter Appropriation Transfer In

a. Management and Operational Headquarters.....10,400
Provides funding for the ARNG's role in domestic preparedness response capability.
These units will respond to and contain the effects of chem/bio incidents
in the United States as stated in the "Reserve Component WMD Response Plan."

Total Inter Appropriation Transfer In.....10,400

Intra Appropriation Transfer In

a. Management and Operational Headquarters.....3,402
Transfers funds from the Staff Management subactivity to the Land Forces Readiness
Support subactivity to align funds with the Army structure.

b. Base Operations Support.....10,477
Transfers funds from the Information Management subactivity to the Land Forces
Readiness Support subactivity to align funds with the Army structure.

c. Base Operations Support.....2,989
Transfers funds for the Operation and Maintenance, Army (OMA) appropriation
of the Operation and Maintenance, Army National Guard (OMNG) appropriation
for initial start-up operations of the Army National Guard enclave at Fort
McClellan.

Total Intra Appropriation Transfer In.....16,868

Total Functional Transfers.....43,174

Program Increases

a. Base Operations Support.....62,393
Partially restores base operations to previous levels and enables facilities
to maintain the support needed without migrating funds.

Total Program Increases.....62,393

Subactivity Group: Land Forces Readiness Support

III. Financial Summary (O&M: \$ in Thousands):

D. Reconciliation: Increases and Decreases:

Program Decreases

a. Environmental Programs.....	(18,582)
Aligns the Environmental Conservation Program to fund the must-fund statutory requirements.	
b. RC School House.....	(3,186)
Provides increased OTEPMO readiness for the Reserve Component school house units to include repair parts, DLRs and POL.	
c. Base Communications.....	(4,488)
Reduces support to communication activities for the ARNG to include video conferencing, telephone services and distance learning.	
d. Real Property Maintenance.....	(50,412)
Decreases capability to maintain and repair ARNG training and logistical facilities.	
e. Counter Drug.....	(288)
Decreases support for the Counter Drug Mission.	
f. Management and Operational Headquarters.....	(70,229)
Decreases support at the headquarters level to include medical and training support.	
Total Program Decreases.....	(147,185)
Total Program Changes.....	(84,792)
FY 1999 Budget Request.....	839,066

DEPARTMENT OF THE ARMY
FY 1999 AMENDED BUDGET ESTIMATES
OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Budget Activity Group 1: Operating Forces
O-1 Line: Mission Operations
Subactivity Group: Recruiting and Retention

I. Description of Operations Financed:

This activity provides funding for the support of quality recruiting and retention goals for the Army National Guard. Funding includes costs of advertising, processing costs for new applicants, and administrative support costs of the Strength Management Force. This activity consists of three programs: Recruiting and Retention Advertising, Recruiting and Retention Support, and Recruiting and Retention Personnel Compensation and Benefits.

Recruiting and Retention Advertising: This program provides funding for multimedia advertising campaigns consisting of printed material, national direct mailings, public service announcements, videos, interactive CD-ROMs, classified and magazine advertising, research and other marketing activity in support of the recruitment of non-prior service high school seniors and graduates, college students, and prior service prospects. Additionally, advertising initiatives support the recruiting of medical professionals and the retention of quality ARNG soldiers.

Recruiting and Retention Support: This program provides funds for the transportation, meals, and lodging of recruits who are being in-processed through Military Enlistment Processing Stations (MEPS). Funding is also provided through this program for commercial communications, commercial facility rental, authorized out-of-pocket expenses, and other expenses supporting the recruiting/enlistment/appointment and retention of soldiers in the Army National Guard.

Recruiting and Retention Personnel Compensation and Benefits: This program provides funds for the compensation and benefits payable to technician personnel who support enlisted recruiting and AMEDD officer recruiting programs.

Beginning in FY 1998, Recruiting and Retention moves from Budget Activity 1 to Budget Activity 4 as Recruiting and Advertising.

Subactivity Group: Recruiting and Retention

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Budget Activity Group 4: Administrative & Servicewide Activities
O-1 Line: Administrative & Servicewide Support

I. Description of Operations Financed:

This budget activity group supports four subactivity groups: Personnel Administration, Staff Management, Information Management and Recruiting and Advertising.

Personnel Administration funds pay and benefits for technicians employed by the State Adjutants General for federal missions, Federal Employees Compensation Act (FECA) payments to Department of Labor for injury and death benefits paid civilian employees, and the ARNG Continuing Education Program.

Staff Management provides funding for pay and benefits to Department of the Army civilian employees assigned to the National Guard Bureau; operation of Army National Guard Bureau management activities within the National Guard (NGB Activities); the cost of supplies, services, and equipment used in providing military support to civil authorities; Field Operating Agency (FOA) expenses including travel and Permanent Change of Station; funds for Public Affairs to include the cost of materials and services used by the Army National Guard to keep the members informed through the command information program.

Information Management includes funding for Army Information Systems (AIS) and for the Reserve Component Automation System (RCAS).

Recruiting and Advertising finances the costs of recruiting soldiers for Army National Guard units and the retention of quality individuals currently in the force.

Budget Activity Group 4: Administrative & Servicewide Activities
O-1 Line: Administrative & Servicewide Support
Subactivity Group: Personnel Administration

I. Description of Operations Financed:

This subactivity group provides for the pay and benefits for technicians employed by the State Adjutants General for the administration of State Headquarters and related activities under the Federal mission. Reimbursement to the Department of Labor for costs incurred in injury and death benefits of civilian employees under the Federal Employees Compensation Act (FECA) is also included in this subactivity group.

Additionally, this subactivity funds the ARNG Continuing Education Program which is designed to meet the higher education requirements required of service members. Programs include the Concurrent Admissions Program (ConAP); the Military Experience and Training Evaluation Consultant (METEC); the Computer Assisted Guidance Information System (CAGIS); the Service Members Opportunity College Army National Guard (SOC GUARD); Tuition Assistance (TA) for M-Day soldiers of the ARNG; Student Guide to Success; External Degree Program; Learning Plus; the Mind Extension University (ME/U); the Army/American Council on Education Registry Transcript System (AARTS); the College Level Examination Program (CLEP) General and Subject Examinations; the College Level Examination Program (CLEP) and DANTES Subject Standardized Tests (DSSTs) for ARNG spouses; and the University of the State of New York Regents, Charter Oak, and Thomas A. Edison College Level Evaluations of ARNG soldiers.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Budget Activity Group 4: Administrative & Servicewide Activities
O-1 Line: Administrative & Servicewide Support
Subactivity Group: Staff Management

I. Description of Operations Financed:

This subactivity group provides for the staffing and operation of Army National Guard Bureau management activities within the National Guard. This includes the cost of supplies, services, and equipment used in providing military support to civil authorities, including civil defense planning and assistance in civil disturbances and emergencies; pay and benefits for Department of the Army civilian employees; Field Operating Activities expenses which include travel, transportation, tuition, PCS, and miscellaneous operating supplies for the Army National Guard; the cost of official blank forms, educational, and official DoD and DA publications; and official representation as authorized by the Secretary of the Army in connection with official functions, dedication of facilities, and visits of distinguished guests. Travel and per diem for personnel serving on the Joint Staff while traveling in support of Army Guard missions are also included in this subactivity.

Subactivity Group: Staff Management

II. Force Structure Summary:

FY 1999 authorized endstrength level is 357,000.
